

## Concealed Mixer Valve W/Check Valve 6765-XP-80P1

### INTRODUCTION:

To create a comfortable bathroom, we have to simplify the idea of its interior design. We would like to present a tidy, functional, but not monotone or narrow shower space for users. Therefore, modern designers have come up a "concealed" conception with bath fittings. By removing the exposed metal pipes, the interior space can be increased a lot, making the bathroom more hygienic and natural. Eventually, taking a shower would be pleasure, rather than just functional.
