

## Sensor Soap Dispenser 6999-SB-7900

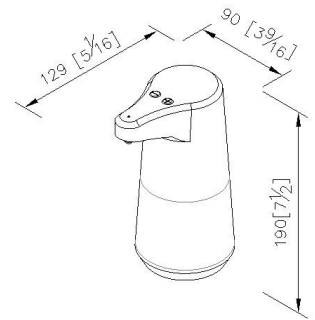

### INTRODUCTION:

Washing hands is our daily routine, but to properly wash our hands, applying hand lotion is rater critical. With the hand lotion, it would eliminate all the germs and virus remaining on your hands, which is equally important as the alcohol spray dispenser. The sensor foaming soap dispenser turns liquid hand lotion into foam; by placing your hand toward the sensing area, it would produce soft and dense foam, which makes hand-washing more enjoyable!

### DESCRIPTION:

- 1.Motor specification: 310-6V
- 2.Battery: AA\*4=6V
- 3.Battery lifespan: 3500 rounds
- 4.Water proof function (IPX): IPX4
- 5.Ambiance temperature???:5??45?
- 6.Sensor lifespan: 50,000 times
- 7.Sensing distance: 3-5cm
- 8.Working voltage: 3.6-6.4V
- 9.Capacity: 350ml

unit: mm[inch]

### Certifictaion:

### Fixing Kits:

- 1.N/A
